The Engage.EU Expedition week

The ENGAGE.EU Expedition is a one-week intensive program and learning experience for students to contribute to societal transformation. Students will work in international teams, with experts and mentors from the Engage.EU partners and collaborators.

By engaging in this international design thinking program, students will contribute to real-life societal transformations and work on current challenges. The program is open for bachelor students in their last year and for master students.

WU will cover the travel and accommodation costs for WU students related to participation in the Engage.EU Expedition. Selected students will be contacted by local coordination office with further information.
