

Systems Concepts in Evaluation

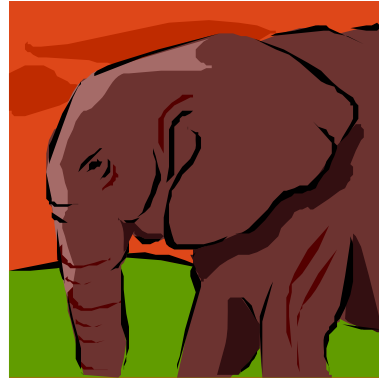

An Expert Anthology

Bob Williams, Iraj Imam (Eds)

If evaluation is about learning, then how come evaluation methods are based on management, planning or economic theories and not learning theories ?

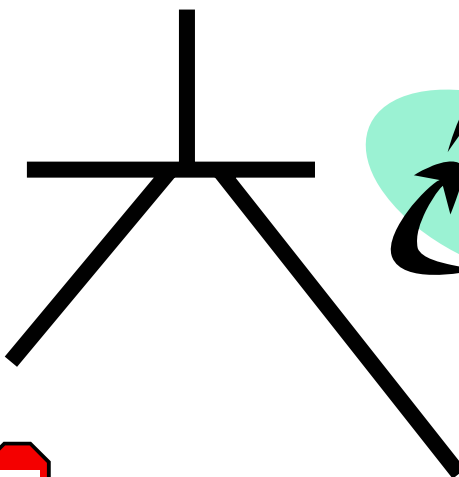

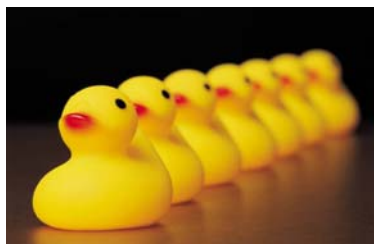

If sustainability is about adaptation,
then how come evaluation methods
assume stability ?

ACTIVITY SYSTEMS

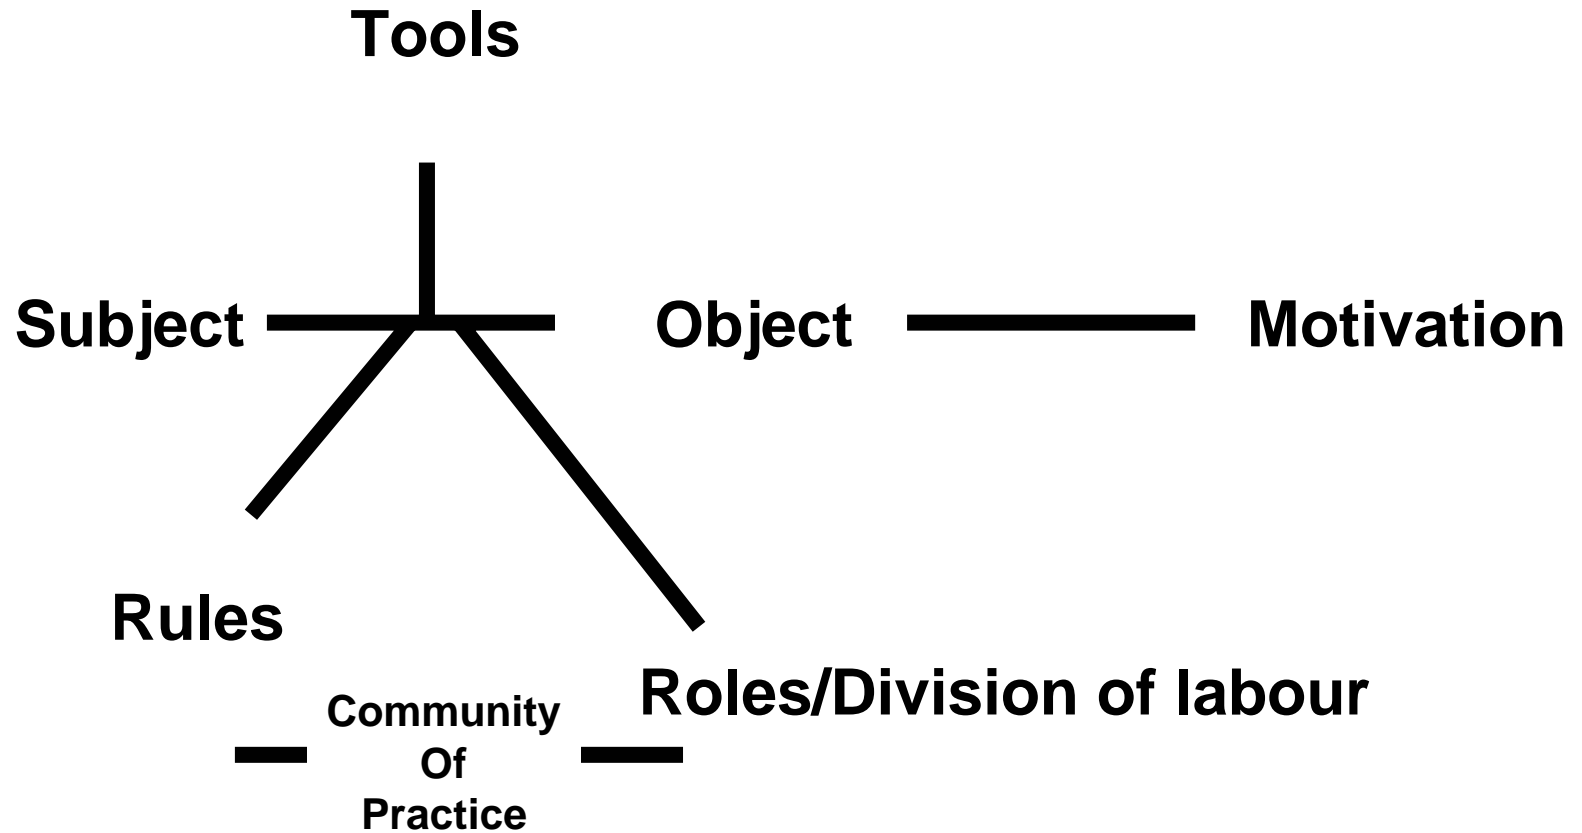

A systems strand – key components

A learning strand – a method of sense-making

A developmental strand –meanings in action

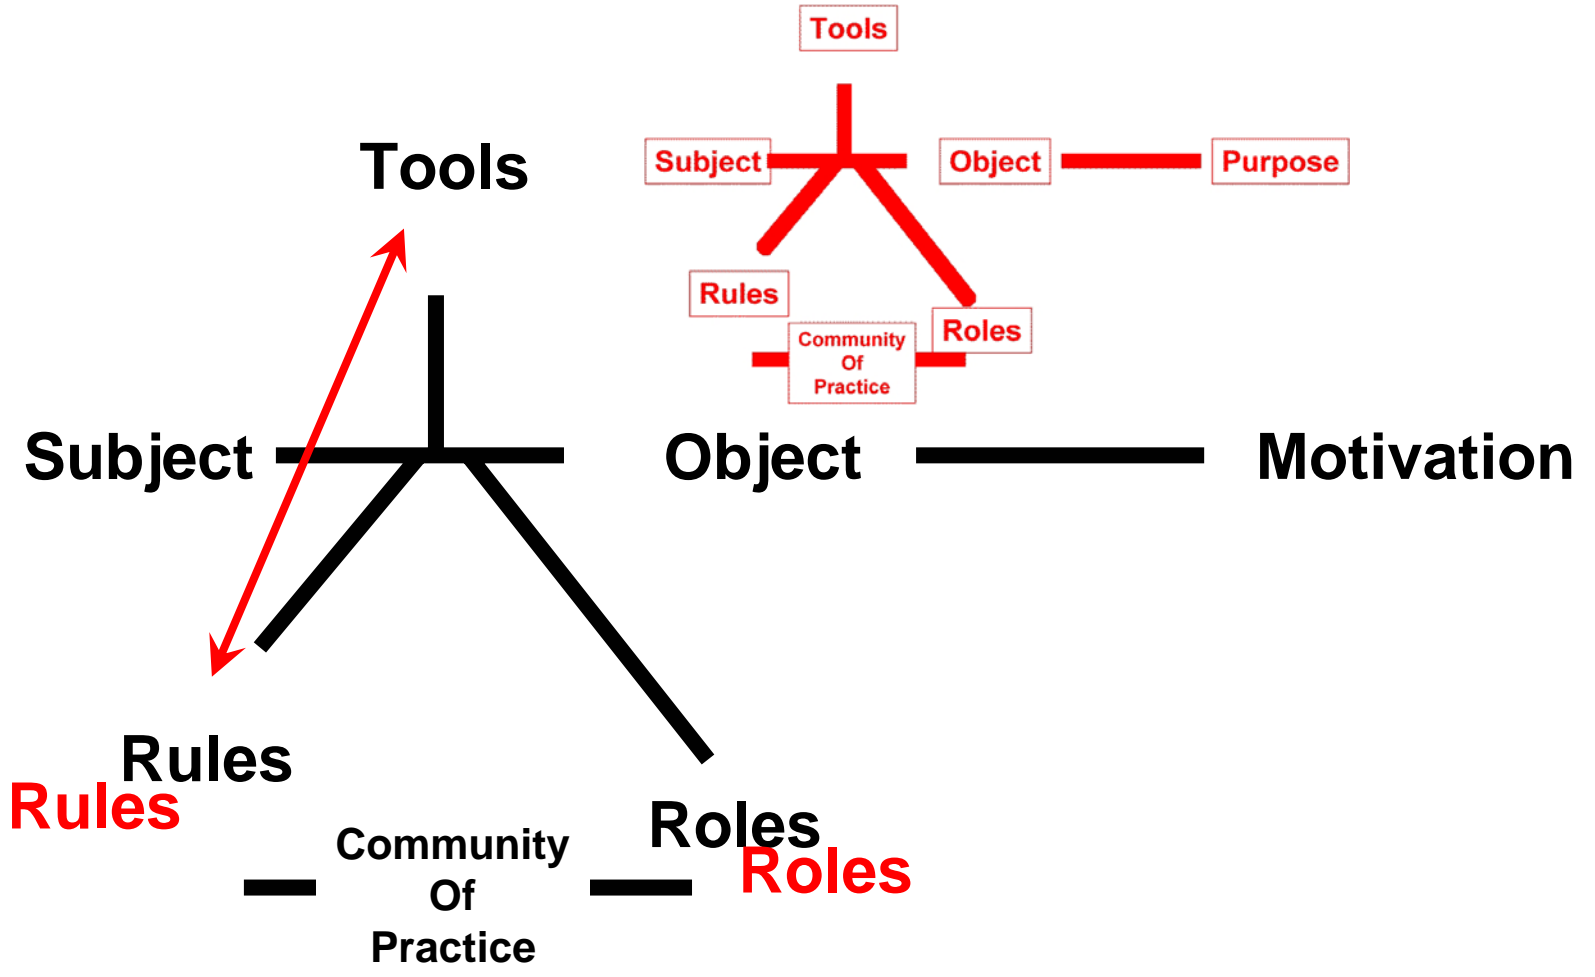

THE ACTIVITY SYSTEM

ACTIVITY SYSTEMS

A systems strand – key components

A learning strand – a method of sense-making

PATTERN

Draw on past experience

PUZZLE

Past experience is not a lot of use

Generalisation and exception - “Mostly, but

Contradiction - “On the one hand ... on the other”

Surprise - “Expected but not there”

Puzzle - ?????
