„wu-dot1x“ and „eduroam-wu“ with Android

First of all, please make sure that you have already established a network password at the Control Panel ([» https://controlpanel.wu.ac.at/](https://controlpanel.wu.ac.at/)).

» Control Panel » Services » Netzwerkzugang

» Control Panel » Services » Netzwerkzugang

The screenshot shows the WU Control Panel interface. At the top left is the WU logo (WIRTSCHAFTS UNIVERSITÄT WIEN VIENNA UNIVERSITY OF ECONOMICS AND BUSINESS). At the top right is the EFMD EQUIS ACCREDITED logo. Below the logo is the text 'Controlpanel'. A dark blue navigation bar contains a UK flag icon, the text 'Angemeldet als _____', and a 'Logout' button. On the left side, there is a vertical menu with the following items: 'ÜBERSICHT', 'ACCOUNT', 'E-MAIL', 'SERVICES' (highlighted), and 'EXTERNE LINKS'. Under 'SERVICES', there are sub-items: 'Info Channels', 'Handy Registrierung', 'LDAP', 'Netzwerkzugang' (expanded), and 'Voice over IP'. The main content area is titled 'WU NETZWERKZUGANG'. It states 'Sie sind für folgende Netzwerkdienste angemeldet:' followed by a bulleted list: 'Verschlüsseltes WLAN', 'VPN-Zugang', and 'Modemzugang'. Below the list, it says 'Ihr Username ist: _____@wu-wien.ac.at'. A bold instruction reads 'Bitte geben Sie ein Passwort ein, um sich für den Netzwerkdienst anzumelden:'. There are two password input fields: 'Passwort:' and 'Wiederholung Passwort:'. The 'Passwort:' field contains six dots. Below the fields is a button labeled 'Neues Passwort setzen'. At the bottom of the page, the footer text is '© 2010 Wirtschaftsuniversität Wien | Kontakt'.

Choose a strong password with at least 6 characters. You will then be part of the user group "Verschlüsseltes WLAN" ("encrypted wireless network").

Locations of Wireless Access-Points at WU-Campus

We provide wireless network service all over the campus, an overview is available at

» http://www.wu.ac.at/it/anleitungen/wlan/wlan_standorte

Setting up your wireless network connection with Android

Die folgende Anleitung wurde mit einem Tablet-PC unter Android 2.2 erstellt.

» *Main Menu* » *Settings (= Einstellungen)*

» *Wireless & Network (Drahtlos & Netzwerke)*

» *Wireless Settings (WLAN-Einstellungen)*

» wu-dot1x

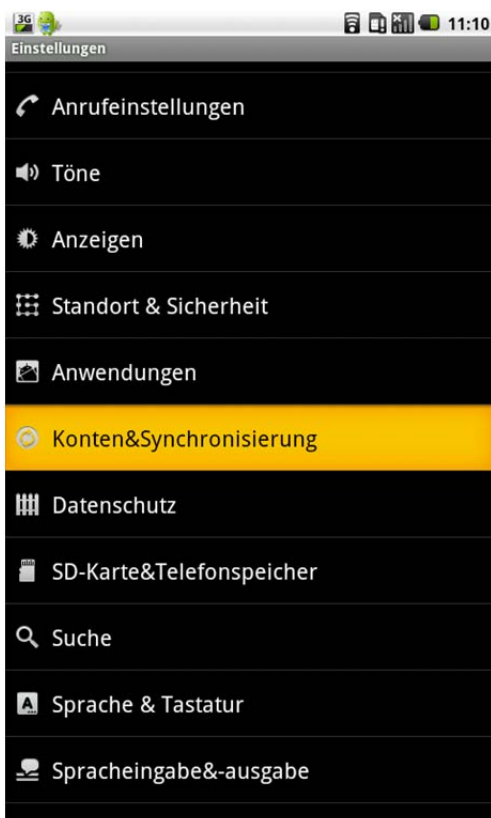

» <hMatNr> or <member-account>, <Wireless-Password>

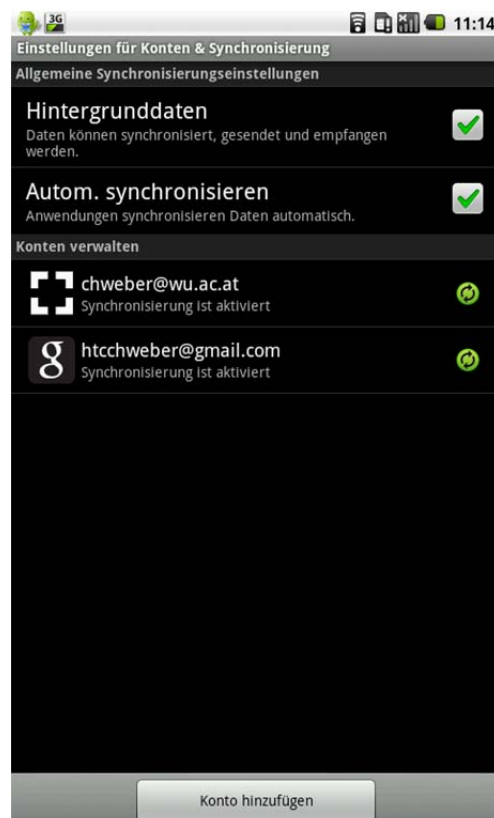

Email configuration with Android

» Settings » Accounts (Konten & Synchronisieren)

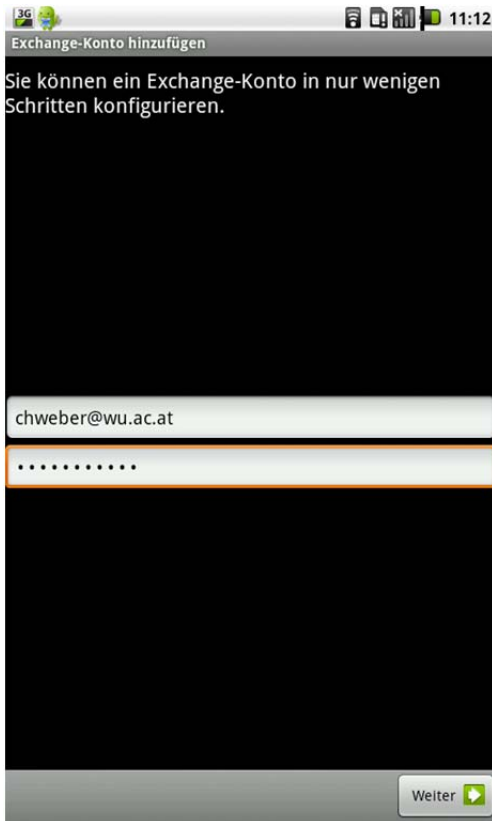

» Add Account (Konto hinzufügen)

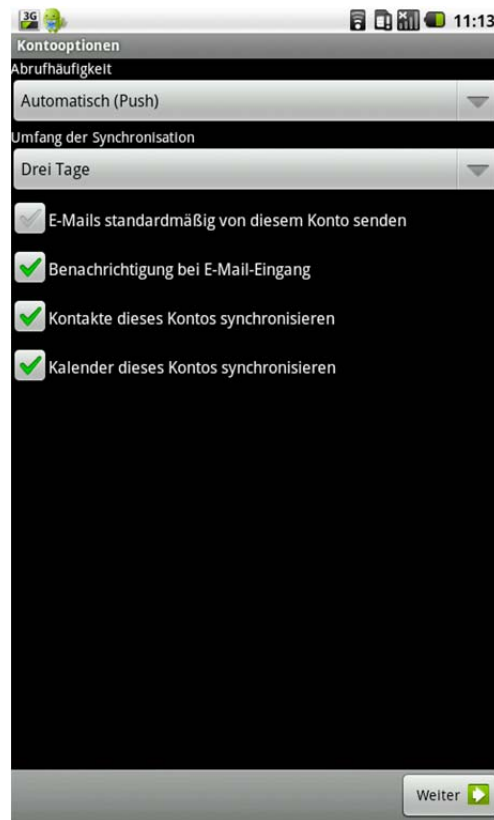

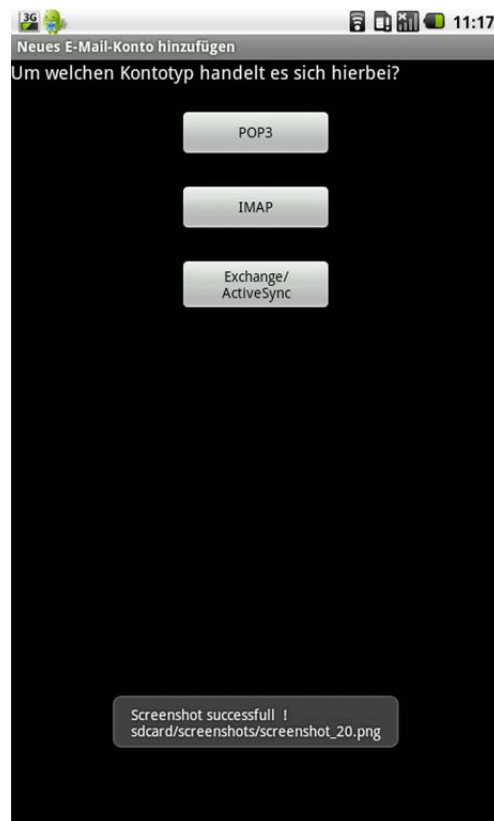

E-Mail for WU members

» fill in your user credentials

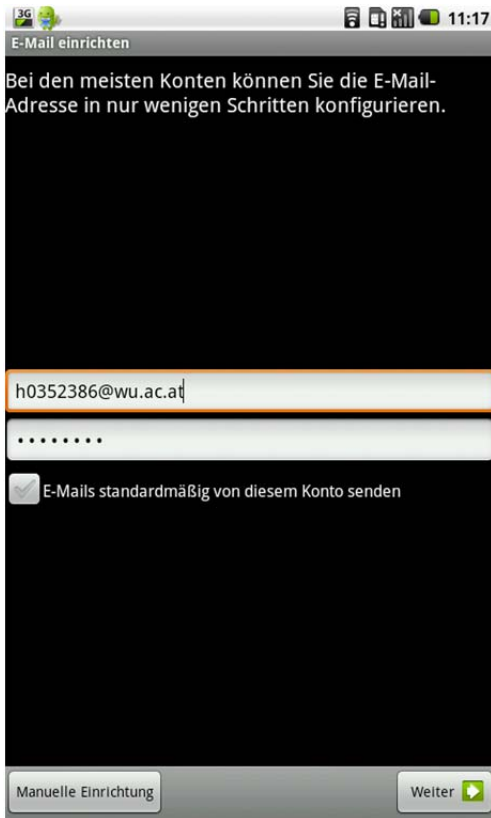

» Exchange/ActiveSync

E-Mail for WU students

» fill in user credentials

» IMAP
