

INTERNATIONAL COOPERATION OF UNIVERSITIES IN THE ERA OF GLOBALIZATION

**Cracow University of Economics
Kraków, Poland
27 May 2010**

The Conference is organized as a part of celebrations of the 85th Anniversary of the Cracow University of Economics.

The aim of the Conference is to analyze the existing forms of cooperation and to discuss opportunities and barriers of new prospects for cooperation between high education institutions in the period of globalization. It is expected that the Conference will allow participants for sharing their experience in international academic cooperation and to develop new ideas of extending forms and content of international academic relations.

Although the participants will come mainly from the partner institutions of the Cracow University of Economics, the problem area can include broader scope of international academic relations.

TOPICS OF DISCUSSION

Academic cooperation

Development of international research projects: Opportunities and barriers

Participation in the Seventh Framework Programme (FP7)

Cooperation of academic institutions with business and public administration

Barriers of implementation of results of research

New forms and areas of interdisciplinary research in economics, business and in related domains

Educational cooperation

Implementation of the Bologna Process: Its advantages, disadvantages and prospects

Exchange of teaching staff

Double diploma projects

Exchange of students – international programmes and bilateral cooperation.

Joint Ph.D. programs

The above topics are but proposals and any other suggestions concerning academic cooperation are welcome.
