The exhibition "CHINESE WHISPERS: Recent Art from the Sigg Collection" gives a comprehensive overview of Chinese contemporary art. Uli Sigg, a business journalist, entrepreneur and former Swiss ambassador to China, has started in the mid-1990s putting together the world's most significant and representative collection of modern Chinese art. The title "Chinese Whispers" refers to the popular party game in which an orally transmitted message changes as it is passed from one person to the next. This raises notions of tradition and transmission, distortion and miscommunication.
