HOW DOES IT WORK?

SIV - SOCIAL IMPACT VOUCHERS

The project focuses on the introduction of vouchers to support job creation, employment of disadvantaged people in the labor market and business development.

SECTION 1

WORK

The voucher offers unemployed people the opportunity to get a job with a monthly contribution of up to CZK 18 000 with the aim of permanent employment.

SECTION 2

START BUSINESS

The voucher allows you to test your business using the BEC method. Testing your business is an approach to verify in practice whether the sale of products or services will succeed on the market, with a guarantee of a monthly income for paid entrepreneurs of up to CZK 13 400.

SECTION 3

EMPLOY

The voucher system is matching employee seeking companies and job seeking disadvantaged people. Vouchers enable job creation for a period of 6 - 12 months.

SECTION 4

COOPERATE

Integrate, make yourself visible, promote and accelerate the recruitment of new clients. Offer jobs. SIV enables the publication of all projects supporting job creation or start-ups. It connects not only employers, but also NGOs and other labor market entities.

SECTION 5

SIF - SOCIAL IMPACT FUND

SIV is financed from the SIF - Social Impact Fund which serves as a sustainable source of funding of the system through private capital, crowdfunding and public finances.
