

Lecture Series of the Research Institute for Supply Chain Management

Monday, June 7, 2021, 5:30 pm

THOMAS ELLMANN:

“REVISITING PANDEMIC RESILIENCE – MANAGING EFFECTIVE LIFE SCIENCE INDUSTRY LOGISTICS TO DISTRIBUTE 200+M VACCINES ”

In his presentation Thomas Ellmann will share first hand insights from DHL’s recently published White Papers, and describe the challenges to get ready to supply globally Vaccines, Ancillaries and other life savings material. Thomas will share a picture of the status quo and give his view on future developments and To-Dos to fight effectively against the Pandemic. This presentation should give every Supply Chain professional a good view on how Logistics play a key role in the change to a new normal.

Thomas Ellmann is Vice President, CSI Life Sciences & Healthcare and Head of Clinical Trials Logistics. Since January 2019 he has been responsible for the X-BU development of Clinical Trials Logistics. He coordinates the Solutions and Services development across the different Divisions in DP DHL and serves as a member of the Global Life Sciences Senior Management Sector Team. In past months he supported the DHL Covid-19 Vaccines distribution as a co-author of the White Papers on “Pandemic Resilience” and is leading the business development efforts in the Global Task Force to support distribution readiness for global Vaccines manufactures and Governments and NGOs. Prior to this role Thomas has joined the DHL CSI Team in January 2016 where he was responsible as a Sales Leader for the EMEA region. In this position he had responsibility for the Sales and business development for a portfolio of large Pharmaceutical and Medical Devices companies as well as territory responsibility for the Emerging Markets in Middle East and Africa. From Nov 2007 – Dec 2015 Thomas was the Global Sector Head for the Life Sciences and Chemicals Sector for the Road Freight Division and was representing DHL Freight on the Global Life Sciences Steering Committee. Prior to joining DP DHL, Thomas has spent several years in the FMCG (Procter & Gamble, Nike) and Specialty Chemicals (Firmenich SA) Industry where he had several roles in Supply Chain and Customer Services. Thomas holds a Master degree in Physics from the WWU Münster, Germany.
