

In the winter term 2026/27, we are offering the

m.core High Potential Award

for the 23rd time in a row. The award is powered by Henkel Central Eastern Europe GmbH.

The winner of the award will be offered a **paid internship** at Henkel.

Procedure: Participation is limited exclusively to our SBWL students. The five students with the best overall performance in courses 1 and 2 of the winter term 2026/27 (bonus points do **not** count), qualify to apply directly to Henkel. The finalists will be invited to an interview followed by comprehensive feedback on their application. The winner is offered the opportunity to do an individual internship with Henkel.

We wish you luck!
