PREFACE

This report presents the activities of the Institute for Austrian and International Tax Law during the academic year 2013/14, which started on October 1, 2013 and ended on September 30, 2014. It was a very successful year for our Institute and for the team as a whole.

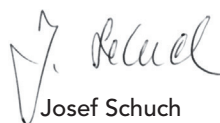

The Institute for Austrian and International Tax Law is among the largest academic institutions in the world carrying out research and teaching about tax law. We are proud to be part of WU (Vienna University of Economics and Business). To a large degree, we are financed by WU as well as by the Austrian taxpayer. However, to a growing extent, we have been getting funds from Austrian and European research institutions, from our partners in the business community and from private and corporate sponsors. For example, nearly half of our staff is financed from sources other than the WU budget. We are grateful to the taxpayer and to all our sponsors and partners and feel obliged to them.

Thus, we want to take this opportunity to report to them, to our students and alumni and to our friends and colleagues in the international scientific community on how we are spending this money and on the results we have achieved. We hope to be able to show that the funds are being used very efficiently.

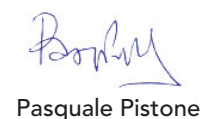

Our main fields of interest are corporate tax law, international tax law and European tax law. Most of our research activities deal with issues in these areas. This is true for our teaching activities as well. On a daily basis, we are aware of the fact that our research activities ensure the quality of our teaching, and that, vice versa, teaching helps us to develop, structure and discuss research ideas. Therefore, both research and teaching focus mainly on corporate tax law, international tax law and European tax law.

New Professor: Alexander Rust

On June 1, 2014 the Institute for Austrian and International Tax Law was given the opportunity to further expand its team of professor: Alexander Rust, who earlier was a full professor at the University of Luxemburg and teaching at New York University and previously doing research at the University of Munich and the Max Planck Institute, was appointed by the Rector of WU as Full Professor for International Tax Law. The appointment was based upon a unanimous proposal of the selection committee. The Institute is extremely happy and proud that a person of Professor Rust's stature, a leading and internationally recognized expert in the field of tax law, is now doing research and teaching at WU.

TEACHING

Teaching Activities in the Regular Program

The basic course "Introduction to Tax Law" is mandatory for most students in the regular program at our university. The Institute for Austrian and International Tax Law offers this course and organizes the exams. The course is offered in German as well as in English. In the academic year 2013/14, about 1295 students took the exams in this course.

The Bachelor Program in Business Law, which combines legal training with a solid education in business administration, comprises three mandatory courses in tax law. After "Introduction to Tax Law", students have to take "Basic Topics in Tax Law" on individual and corporate tax law, VAT and procedural law. The mandatory program ends with "Advanced Topics in Tax Law", which is a seminar on selected recent tax issues dealt with by domestic, foreign, national or international courts or tax authorities. Those students who want to specialize further may decide to take European tax law and special subjects in corporate tax law, such as procedural tax law, European tax law, seminars on recent developments in EC tax law, reorganization tax law, transfer pricing, taxation of banks and capital market products and criminal tax law. Every student is required to write a bachelor's thesis. Each semester the Institute provides two main topics which are divided into 15 sub-topics for which the students can apply.

The Master Program in Business Law, which focuses on a comprehensive theoretical and practical education in Austrian, European and international business law, provides three mandatory courses in tax law: In "Corporate Tax Law" the students gain a deeper knowledge regarding the specificities of corporate income taxation. "International Tax Law" deals with the application of double taxation conventions. In "Foreign Tax Law"

the students may choose between courses dealing with developments in international tax law and in foreign tax jurisdictions. In the academic year 2013/14, we had lectures on "Jurisprudential Perspectives of Taxation Law" (Prof. John Prebble, Victoria University of Wellington, New Zealand), "Transfer Pricing in International Companies – Selected Issues with Case Studies/Court Decisions" (Prof. Alfred Storck, University of St.Gallen, Switzerland), "Taxation and Development: The Role and Importance of Taxation Rules for Developing Countries" (Dr. Peter Baumgartner, former director of SwissHoldings, Switzerland), "Das brasilianische Steuersystem: Würdigungen & Probleme einer umfangreichen Steuerverfassung" (Prof. Luís Eduardo Schoueri, São Paulo University, Brazil), "Issues in U.S. International Tax Law and Policy" (Prof. Joseph Clifton Fleming, Brigham Young University, USA), "Selected Issues in European Tax Law" (Prof. Edoardo Traversa, Université catholique de Louvain, Belgium) and "VAT developments in Europe" (Prof. Eleonor Kristoffersson, Örebro University, Sweden). Finally, our Institute offers an "Advanced Seminar on Tax Law". For this advanced elective, the students may choose "Simulated Tax Treaty Negotiations", in which students from two universities negotiate on a fictitious double tax treaty between their countries via a video-conference (in the fall semester students of WU and students of the São Paulo University "negotiated" a fictitious new tax treaty between Austria and Brazil; in the spring semester WU students "negotiated" with the University of Amsterdam on a fictitious Austria – Netherlands treaty), "Business Tax Law", in which students take part in a fictitious court case through role play, "Tax Planning and Transfer Pricing in Multinational Companies – Current Issues and Case Studies", in which all students work on complex case studies, or "Tax Compliance".

WU's new Master Program in Taxation and Accounting was developed by our Institute in close cooperation with other departments of WU. It started in October 2011 and provides students with a comprehensive, interdisciplinary, and specialist education in the fields of accounting and taxation that extends far beyond the basics. Graduates are highly qualified to work in fields like tax consultancy and auditing, or in the tax departments of large corporations. Students are required to take the following mandatory courses in tax law: "Corporate Tax Law", a course on special subjects in corporate tax law, where students may choose from "reorganization tax law" and "Tax Planning and Transfer Pricing in Multinational Companies – Current Issues and Case Studies", "International Tax Law", "Foreign Tax Law", "Tax Policy" and "Advanced Seminar on Tax Law".

Each student in either master program is required to prepare a master's thesis in which the student has to demonstrate his or her ability to independently treat a topic with the help of academic research methods. Ambitious and interested students are invited to write a tax-related master thesis at our Institute.

TEACHING

Visiting Professor

During the academic year 2013/14 Professor Edoardo Traversa (Université Catholique de Louvain, Belgium) was Visiting Professor at our Institute. He taught courses on "Selected Issues in European Tax Law" and "European Tax Law". In his inaugural lecture, which took place on November 21, 2013, he spoke about "Tax incentives and territoriality: reassessing the ECJ case-law in the light of the principles of federalism and sound tax policy".

Books for Students

Our Institute provides materials accompanying most of these courses and giving guidance to students. In September 2014, we published the fourteenth edition of our book "Einführung in das Steuerrecht" (Introduction to Tax Law), edited by Prof. Michael Lang, Prof. Josef Schuch and Prof. Claus Staringer. The third edition of the book "Introduction to European Tax Law on Direct Taxation" which was published by Prof. Michael Lang, Prof. Pasquale Pistone, Prof. Josef Schuch and Prof. Claus Staringer as well as the book "Introduction to Double Taxation Conventions" of Prof. Michael Lang, which was also translated into Spanish and published in Latin America. In April 2014, we published the first edition of our book "Praxisfälle Steuerrecht" edited by Dr. Kasper Dziurdz.

Special Activities Offered to Students

EUCOTAX

Every year six of the best students of our Institute participate in the EUCOTAX program (European Universities Cooperating on Taxes). EUCOTAX is a network consisting of the tax law institutes of universities in Paris (Panthéon-Sorbonne), Barcelona (Universitat de Barcelona), Uppsala (University of Uppsala), Tilburg (Tilburg University), Leuven (Katholieke Universiteit Leuven), Washington DC (Georgetown University), Budapest (Corvinus University), Rome (LUISS Guido Carli University), Osnabrück (Universität Osnabrück), Lodz (University of Lodz), Warsaw (University of Warsaw), Zürich (Universität Zürich), Edinburgh (University of Edinburgh) and Vienna (WU). In the academic year 2013/14, the EUCOTAX conference was held in Paris from April 10 to 17, 2014. The general subject was "Fairness and Taxation". Prof. Michael Lang, Ina Kerschner and Marion Stiasny supported and supervised our students (Maria Hofer, Elisabeth Höltzschl, Florian Bachmann, Eva-Maria Kienleitner, Edith Lebenbauer and Olga Ovadias). These students were selected in June 2013 after which they started to write their theses in English. During the fall term 2013/14, a special seminar was organized in order to allow them to discuss their work and to receive a special English-language training, provided by Margaret Nettinga, a former editor of European Taxation. She came to Vienna twice to discuss issues with the students and to hear their presentations. She read the first drafts and the final versions of the theses and gave her comments on how the language could be improved. The students also presented and discussed the research results with tax experts from EY-Vienna. Finally, the students participated in workshops and presented the results of their master's theses in Paris.

Topics of the EUCOTAX Master's Theses 2013/14:

1. Fairness Between Low-Income and High-Income Earners
2. Fairness and Taxation of Different Types of Income in Austria
3. Fairness and Anti-avoidance Measures
4. Fairness in Procedural Tax Law
5. Fairness in Allocating Taxation Rights between Source and Residence States
6. Fairness and Taxation of Residents and Non-Residents

Moot Court on European and International Tax Law 2013/2014

In 2014, we again took part in the Moot Court Competition on European and International Tax Law, which is organized by the Catholic University of Leuven (Belgium). The competition was held from March 2 to March 9, 2014 in Leuven. Our team reached the second place out of 16 universities. Moreover, the team was awarded prizes for the best overall pleadings and for the best written memorandum on behalf of the applicant. A moot court is a fictitious court before which teams of students play the roles of applicant and defendant and argue their case. Prof. Claus Staringer and Erich Schaffer supported and supervised our students (Gabriel Gnießer, Adam Horváth, Stefanie Miklos, Dragana Todorovic). As in the EUCOTAX program, the participants enjoyed language training by Margaret Nettinga and attended a special seminar as part of their preparation. Moreover, the students who participated in this program may write their master's and bachelor's theses based on the topics of the moot court. The 2014/15 student team was selected in June 2014.

BDO Best Presentation Award

Once again, we honored those students who gave the best presentations at our seminars: The BDO Best Presentation Award went to Stefan Gruber, Maximilian Hammerschnied, Jakob Kleinschuster, Marijana Marijic, Stefanie Vonbank and Victoria Vonbank for the fall term and to Alfred Auner, Anna Derfler, Nicole Forte, Franz Iglseider, Michaela Schrottenbacher and Markus Tilzer for the spring term. We officially announced the winners at our semester closing, organized in cooperation with BDO Austria GmbH.

- BDO Semester Closing Fall Term 2013/2014: January 23, 2014
- BDO Semester Closing Summer Term 2014: June 26, 2014

EY Bachelor Tax Challenge, Tax Professional of the Year and Tax Law Seminar

Within the EY Tax Challenge five bachelor theses are called for tender in cooperation with EY. These theses were based on case studies with practical importance and involve current issues of tax law. The students were both supported by research staff of the Institute as well as practitioners from EY. The authors of the best three theses were selected to participate in the EY Tax Challenge, which took place in Munich. During the tax challenge the team had to analyze and solve complex case studies of Austrian, German as well as Swiss tax law and competed against other teams of students from these countries.

Similarly, the EY Tax Professional of the Year program gives students the opportunity to research important topics for tax law practice in the context of their master thesis. Four topics were called for tender which are simultaneously supported by both the Institute's research staff as well as practitioners from EY. After completing the theses, the author

TEACHING

of the best thesis was selected to take part in the Young Tax Professional of the Year program taking place in Amsterdam and, furthermore, was invited to participate in the 2014 IFA congress in Mumbai. This year's best thesis was written by Christina Kerekes, whom we would like to congratulate wholeheartedly.

Lastly, the Tax Law Seminar in cooperation with EY allows four students to combine their mandatory university lectures with a one-month internship at EY. A problem identified during that internship is then academically investigated and written up as a paper and presented before selected academics and practitioners.

Semester Opening, Semester Closing, Master Welcome

With more than 25,000 students, WU is a very large university. We thus try our utmost to establish close relationships with our students. Several initiatives have been taken by our institute to achieve this goal. Each semester we invite our students to a typical Austrian wine tavern ("Heuriger") for a dinner buffet (Semester Opening). This year, PwC sponsored these events and thereby gave us the opportunity to present our teaching and research program for the upcoming semester and to get in touch with our students outside the lecture rooms. Moreover, we celebrated the end of the fall term and the spring term together with our students and BDO Austria GmbH at the Institute in an informal atmosphere (Semester Closing).

Semester Opening:

- October 16, 2013
- March 12, 2014

Semester Closing:

- January 23, 2014
- June 26, 2014

Further, we invite new students in the master programs "Business Law" and "Taxation and Accounting" to a welcome reception at our library. Besides presenting the regular lecture program we show them our research facilities in the library and offer them the opportunity to participate in special activities in lecturing and research.

PwC-WU Seminar on European and International Tax Law

In cooperation with PwC, the Institute for Austrian and International Tax Law held a seminar series on Current Issues in European and International Tax Law. Numerous distinguished scholars were invited to give a presentation for selected students as well as practitioners and other researchers. This seminar was held for the first time in 2005/06. Because this seminar series was a great success, it will be held again next year.

Career Prospects for Students

On December 10, 2013, together with BDO, Deloitte, Grant Thornton Unitreu, KPMG, LBG, LeitnerLeitner, PwC and TPA Horwath our Institute invited students to attend a panel discussion on the future of the profession of “tax adviser”. The students had the opportunity to talk to experienced practitioners on current and future issues and developments in this topic.

Another panel discussion was held on May 13, 2014 to discuss career prospects for our students in law firms. The discussion was sponsored by Binder Grösswang, EY Law, Freshfields and Wolf Theiss. These firms also designated the members of the panel.

Traineeship at the Federal Tax Court

The Federal Tax Court offered our best students three internships in the summer 2014. After a comprehensive application procedure the students selected gained inside information regarding the daily activities at the Federal Tax Court. Furthermore, the students could also see how to use their knowledge in practice.

Visit to the Federal Tax Court

The best 50 students were given the opportunity to take part in an oral hearing at the Federal Tax Court in Vienna. This hearing was scheduled on December 2, 2013. Afterwards, Dr. Christian Lenneis, Vice-President of the Court, explained the judgment to our students.

LL.M. Graduates from all over the world

TEACHING

LL.M. Program in International Tax Law

Our Institute has been offering an LL.M. program in International Tax Law since 1999. The program enjoys a high reputation worldwide and is a joint activity with the Akademie der Wirtschaftstreuhänder. In the academic year 2013/14, a full-time and part-time program started in September 2013. The full-time program finished in June 2014, the part-time program will be finished in June 2015. For the next full-time program which started in September 2014, we admitted 27 students in total, but had four times as many excellent candidates. The applicants came from 40 different countries, 71% from outside Europe. A welcome reception was held on September 4, 2014, for all new students.

Scholarship

ERSTE Bank and DIE PRESSE provided funds for a scholarship for the full-time program that started in September 2014. Mr. Murillo Allevato Neto was selected in March 2014 and received a check of EUR 11,900.

International Faculty

The faculty we welcomed in Vienna for our LL.M. program was very international. Among them were some of the most distinguished experts in international tax law.

The Doctoral Program in International Business Taxation (DIBT) has been developed by the Institute for Austrian and International Tax Law together with the Tax Management Group and the Institute for Fiscal and Monetary Policy. DIBT offers a unique excellent doctoral education to outstanding students from all over the world, fully preparing them to conduct research on international business taxation. It provides interdisciplinary training in business, economics, law, and tax psychology. It is a three year program and graduates are awarded a PhD degree in International Business Taxation. An elite group of young tax researchers are being prepared for future academic careers in their home countries or in other countries. DIBT is funded by the Austrian Science Fund (FWF), after having been evaluated by experts from all over the world. DIBT successfully competed with other proposals for PhD programs from completely different disciplines.

The program is open to students from countries all over the world. In September 2013, five young researchers were admitted making a total of 20 students from Austria, Brazil, China, Germany, Italy, Republic of Korea, Malta, Mexico, Poland, Russian Federation, Turkey, Ukraine and the USA. We expect a further six students to start in September 2014 after having received a total of 87 applications from 42 different countries.

RESEARCH ACTIVITIES

Christian Doppler Laboratory

The Institute for Austrian and International Tax Law, together with the corporate partner Deloitte, established a "Christian Doppler Laboratory" in July 2013. The Laboratory was officially opened on 21st October 2013 with an opening ceremony and a panel discussion about the future of global information exchange. The project is dealing with the sensitive issue of "Savings Taxation in a Globalized World" and is the first Doppler Laboratory in the area of law. The team of the laboratory focuses on researching three sub-areas: Firstly, the developments in the field of European savings taxation; secondly, the relation between European Union law and international agreements in the field of capital taxation; lastly, the essential issue of information exchange in the context of international tax law. As these issues are part of the current international political agenda, the laboratory will greatly contribute both to the scientific analysis of existing law and to the development of new effective rules, meeting future challenges in the field of savings taxation.

WU Global Tax Policy Center at the Institute for Austrian and International Tax Law

Following its inception in 2012, the WU Global Tax Policy Center headed up by Prof. Jeffrey Owens has continued in its aim to become one of the leading think tanks on the interface between tax policy, tax administration and tax law in today's global economy. All events at the Center bring together tax policy makers, tax administrators, tax practitioners as well as researchers from around the globe. The Center provides a forum for discussions on tax policy formulation and implementation, drawing upon the experiences of developed and developing countries and economies in transition. B&C Industrieholding, B&C Privatstiftung and the Austrian Federal Economic Chamber, Division Bank and Insurance, are supporting the Center.

Fireside Chats

In this series of events, Prof. Jeffrey Owens and leading players in the field of tax policy discuss issues that are currently preoccupying governments, business and civil society. They enable a wide range of people to participate in these policy debates, providing input from their various fields of interest.

On October 18, 2013, Prof. Owens welcomed Michael Sell (Director General at the Federal Ministry of Finance – Tax Department (Germany)), to the first edition of the Fire Side Chat on the new WU campus to examine "Emerging international tax policy issues in a post BEPS world". The discussion focused on BEPS, the digital economy, aggressive

tax planning by MNEs and harmful tax competition. On November 20, 2013, Prof. Owens discussed “Giving developing countries a voice in the International tax debate” with Michael Lennard (Chief, International Tax Cooperation Section at UN). The debate focused on the role and function of the UN Tax Committee, the UN Model Convention and its priorities for the upcoming year, Transfer Pricing, the UN Manual, Exchange of Information, the UN and BEPS, as well as the UN’s Committee on natural resource taxation. On May 28, 2014, Prof. Owens welcomed Rick McDonell (Executive Secretary of the Financial Action Task Force (FATF)) and together they debated “Tax and Crime: Is There a Middle Ground for Cooperation?” The Tax Policy Fireside Chats are streamed online and are available anywhere in the world, thus making them a truly globally-accessible event.

Training Program for Tax Officials

Along with EY, the African Tax Institute (ATI), the International Tax and Investment Center (ITIC), and with support from the World Bank International Finance Corporation (IFC), the Institute has established a training program for tax officials from all over the world. This is aimed at CIS countries and Africa, with room for further areas. All the modules are intended to focus on the practical issues encountered by tax officials and are taught by instructors who have a broad experience in these areas. Whilst there is a lead faculty for each module, they are supported by a varied team of experts that bring together a diverse set of experiences, including the experience of working in a host country. Each course comprises three modules, (1) Transfer Pricing: Getting It Right; (2) Double Taxation Conventions: Their Role, Negotiation and Implementation and (3) Indirect Taxation: VAT, Customs and Excises. Each module aims to be very practical, and incorporates a one-day practical session where people from business are invited to participate in a roundtable format to share their experiences: discuss business models; explain how investments are evaluated and decided upon; and discuss tax and its role in investment decision-making.

The idea has been for this program to uniquely bring together people with different sets of experiences to simulate the exchange of opinions and dialogue, which would not generally be a part of standard business practice in these markets.

Following on from the events in Tbilisi and Vienna, the Academy hosted the first VAT and Excises course in November and was also the first event to take place at the new campus. It saw simultaneous translation into Russian with interested participants from Russia, Kazakhstan, Ukraine, Kosovo, Azerbaijan, Georgia, Kyrgyz Republic, Romania, Tajikistan as well as the Punjab Revenue Authority and the Eurasian Economic Commission. In 2014, the first African event took place at the African Tax Institute in Pretoria. Over 30 participants from 13 different countries participated in the VAT and excise course. The second Eurasian Tax Treaty course took place from June 23 to 28 with participants from 15 different Eurasian countries present.

Joint Program on Tax and Governance

An agreement for a joint research project was initiated between the Institute for Austrian and International Tax Law and the European University Institute (EUI), Florence. This joint program on Tax and Governance between the EUI and the WU Global Tax Policy Center at the Institute for Austrian and International Tax Law, aimed to bridge the gap between research and policy, by bringing together academics, business leaders and policymakers at the highest level to discuss, in an informal environment, issues of global governance. The topics covered were: tax, governance, accountability and transparency; Tax competition: establishing global rules of the game; Governance, illicit flows and the role of tax administrations; Global tax governance, sustainable growth and financial stability; Managing the global environment and scarce resources: the tax governance issues.

RESEARCH ACTIVITIES

Between December 11-13, 2013 an Executive Training Seminar was held in Vienna on "Multilateralism and the Shift Towards Global Tax Governance and Fiscal Transparency". Over 30 participants came from around the world and from business, academia, government and International organizations to take part in discussions ranging from "Enhancing Multilateral Transparency within the EU" to "Ensuring the voice of less developed countries is heard".

Conferences

Conference "Practical Problems of Tax Treaty Interpretation and Application: The Case Study Conference"

Nothing other than an international conference would have been more natural to introduce the new campus of WU to the scientific community in international tax law; on October 21, 2013, The Institute for Austrian and International Tax Law of WU and the Austrian IFA Branch, together with the IFA branches of the Czech Republic, Estonia, Hungaria, Poland and Slovakia, hosted the Conference "Practical Problems of Tax Treaty Interpretation and Application: The Case Study Conference".

This conference focused on case law studies based on practical cases or problems which are of relevance in bilateral tax treaty relations. At the conference, qualification conflicts were discussed with treaty negotiators and competent authorities, on the basis of selected case studies. Treaty negotiators or competent authorities from Austria, Czech Republic, Estonia, Germany, Hungary, Poland and Slovak Republic discussed these case studies in the framework of this conference, at the new premises of WU. Both the conference and the thrilling architectural highlights of the New Campus were met with great interest by the attendees from all over the world.

This event was held back to back with an "Open House" day and the annual "Klaus Vogel Lecture" as well as the Alumni Reunion of the LL.M. studies in International Tax Law and together these events marked the opening weekend of the Institute at the new Campus.

Conference on Procedural and Constitutional Law

The results of several of our research projects were presented to the scientific community and discussed with fellow researchers from other Austrian and foreign universities in conferences organized by our Institute. Together with the Institute for Austrian and European Public Law at WU, we hold conferences on procedural and constitutional law on an annual basis. This year's conference was held on November 15 – 16, 2013 on the procedure before the newly established Federal Tax Court and Federal Administrative Court. Well-known colleagues from other Austrian and foreign universities contributed to the conference. A book containing all the papers has been published.

Conference "Recent and Pending Cases at the ECJ on Direct Taxation"

This by now traditional conference was held from November 21 to 23, 2013 at WU in Vienna. The conference focuses on ECJ case law and presents an overview of the current case law through recent and pending cases at the ECJ. These recent and pending cases were presented and subsequently discussed by experts from the respective Member States. The results of the conference were published in a book. Moreover, we were happy and proud that this conference was enriched by two Advocates General who provided the audience with interesting insights into the court's reasoning. By analyzing the foregoing case law, professor Philip Baker made some mechanisms and framework visible in his input statement on "Recent Trends in ECJ Case Law". "ECJ – Recent Developments in Direct Taxation 2013" has been published in early 2014 with Linde Verlag, Vienna.

Conference "Court of Justice of the European Union: Recent VAT Case Law"

On December 16-18, the Institute for Austrian and International Tax Law, WU in collaboration with the Taxation and Customs Union Directorate of the European Commission hosted a Conference: Court of Justice of the European Union: Recent VAT Case Law. This conference focused on the recent case law of the Court of Justice in the area of indirect taxation. The conference was a vibrant success, which was particularly gratifying to the Institute, as it was the Commission itself which first approached the Institute to organize this event together and it was the first time the Institute has hosted a conference on VAT Case law.

At the conference, judgments rendered from January 2012 onwards and important earlier judgments were analyzed by a panel consisting of leading academics, judges, government representatives and business representatives from all over Europe and as far as Australia. During the conference, the recent cases and the earlier cases were dealt with topic by topic. By and large, while there was much debate on the narrow and technical legal issues, there seemed to be consensus among the panelists on the broad issues such as the need to modernize the VAT System. The current VAT system and its weaknesses are considered to represent a barrier to trade and to the functioning of the single market and to hinder Europe's competitiveness. There is indeed much need for further discussion and analysis, wherein academia can really provide valuable input.

A book containing the scientific output of this conference was published with Linde Verlag, Vienna, in early June 2014

RESEARCH ACTIVITIES

Viennese Symposium on Corporate Tax Law

On January 22, 2014, the Viennese Symposium on Corporate Tax Law was held at our university for the fourth time. Professors and researchers from our Institute presented the results of their research on the topic "Niedrigbesteuerung im Unternehmenssteuerrecht". The symposium offered not only scholars and students but also practitioners the chance to actively participate in discussions with our research staff. The lectures given at the symposium will also be published in a book.

Tax Law and Accounting

On April 25 and 26, 2014, the "Wiener Bilanzrechtstage" was held at our university for the eleventh time. This is a joint activity between our Institute, the Institute for Taxation and Accounting and the Institute for Commercial Law at our university. 300 practitioners with an interest in academic topics accepted our invitation to attend and heard a number of very interesting lectures on the general topic "New Limits for Structuring Taxes and Balance Sheet".

The event was jointly organized by the Institute for Austrian and International Tax Law, WU and the European Tax College of Tilburg University. Academics and practitioners from more than 25 countries presented 41 of the most interesting recent court cases of their domestic jurisdictions on tax treaty law. The presentations were followed by active discussions. The results of the conference will also be published in a book.

21st Viennese Symposium on International Tax Law

On July 2, 2014, the 21st Viennese Symposium on International Tax Law was organized by our Institute in cooperation with the Austrian Branch of the International Fiscal Association (IFA). Jaques Sasseville (OECD), Prof. Michael Tumpel (University of Linz) Prof. Heinz Jirousek (Ministry of Finance) and the research staff of our Institute presented the results of their research on the topic "The OECD-Model-Convention and its Update 2014". Conference "General Anti-Avoidance Rules (GAARs) – A Key Element of Tax Systems in the Post-BEPS Tax World?"

The Institute for Austrian and International Tax Law, WU Vienna and the Doctoral Program for International Business Taxation and the WU Global Tax Policy Center joined forces to organize a conference "General Anti-Avoidance Rules (GAARs) – A Key Element of Tax Systems in the Post-BEPS Tax World?" which was held in Rust, Burgenland, from

July 3 to 5, 2014. The main purpose of this research project was to assess and compare the recent trends in the area of GAARs and examine how they fit into the current European and international environment and whether the most recent rules meet constitutional requirements. More than 40 national reports laid the groundwork for in-depth discussion from various angles and perspectives.

For the first time, the conference was preceded by a "DIBT Doctorate Workshop" on the same topic, which gave nine selected PhD candidates in this area the opportunity to present their research to the scientific community and to receive valuable input from well-regarded academics as well as from fellow PhD candidates. The event was met with huge interest and was a big success. We are already working on the book project which will make the results of the conference accessible to a wider audience.

Conference "The Future of VAT in a Digital Global Economy"

From September 24 to 26, 2014, a huge number of experts in the area of indirect taxation convened in Vienna at WU to work on selected issues of VAT in a Digital Global Economy. Organizations like the OECD, European Commission, IMF and others teamed up with key stakeholders from big multinationals and with government representatives, as well as with leading experts from global tax advisory business. The Institute for Austrian and International Tax Law in cooperation with PwC took the lead on discussing highly topical aspects of taxation in our modern digital global economy. By analyzing the present situation and the historical legal framework, the conference also aimed at shedding some light on the future: Where could indirect taxation in this area reasonably go? All agreed that in this important area tremendous efforts are needed to develop the systems further in order to better meet the economic and commercial requirements of the global market. The authors are working to get the scientific output of the conference publish shortly.

RESEARCH ACTIVITIES

OECD Archives

For researchers in tax treaty law, the minutes and other documents of the OEEC and OECD committees at the time the OECD Model Convention was drafted, provide a lot of valuable information about the intention of the drafters. Until now, these documents have been available only in Paris or Florence where the OECD Archives are located. Our Institute is the leading partner of a consortium consisting of the OECD, the IBFD, the Canadian Tax Foundation, IFA Canada and the University of Piacenza. Together, we have photocopied, scanned, and digitalized these documents and put them on the internet, in order to make them available to researchers all over the globe. In addition to the materials already present in the database, during the academic year 2013/2014 the documents from the seventies and eighties related to the development of the OECD Model Convention were collected. These materials are available since autumn 2014. (www.taxtreatieshistory.org).

Dr. Sebastian Pfeiffer further received the Maurice Lauré Prize for his theses. Tax Lunch Talks

In the academic year of 2013/14, we again organized "Tax Lunch Talks". These events aim at encouraging interaction and cooperation between the research staff and guest researchers of the Institute and the LL.M. students. These regular meetings begin with a short lecture by an LL.M. student on recent developments in tax law in his or her home country. This talk is followed by a small lunch reception, so that the LL.M. students and the researchers have an opportunity to meet on a more informal basis. This format – combining a professional and a social event at lunch time – was highly appreciated by researchers and LL.M. students alike and will be continued in the future.

Speakers and Topics of the Tax Lunch Talks

Giulia Manara, Alban Zaimaj: "The Concept of Abuse of Law in Italian Case Law"
 Marco Mosconi, Vittorio Tison: "Transfer Pricing Documentation in Italy"
 Elio Palmitessa: "The Voluntary Disclosure in Italy: The Regularization of Assets Held Abroad in Breach of Tax Reporting Duties"
 Natalia Kasalovska: "Cross-border Hiring Out of Employees in the Czech Republic in the Light of the EU law"
 Kuralay Baisalbayeva: "Property Taxation in Kazakhstan and Recent Amendments"

RESEARCH ACTIVITIES

Round Tables

When conducting research, it is always beneficial to discuss newly developed ideas and theses with colleagues and professors. At the Institute for Austrian and International Tax law we have established a "Round Table" format, which gives researchers the possibility to discuss their thoughts on a research topic they are working on in an informal but organized way. To this end, a draft paper has to be prepared and circulated to all members and guests of the Institute one week in advance. Everyone is invited to read the paper and attend the Round Table. The discussion is chaired by a professor and is usually very lively. The author of the paper profits from the input received and the new perspectives on his/her topic, which enables him/her to develop his/her ideas further.

At the Institute for Austrian and International Tax Law we are in the fortunate position that we can discuss our ideas not only with the staff of our Institute but also with visiting professors and guest researchers from all around the world. Furthermore, our guests generally use the opportunity while they are with us to present a paper at a Round Table. In this way one can learn not only about foreign tax systems but also about the different ways of dealing with international tax issues and opinions on how to deal with them.

Incoming Foreign Researchers

High-level research is only possible if close links to the international scientific community are established. The Institute for Austrian and International Tax Law therefore tries to invite as many excellent foreign researchers as possible to cooperate with us on our research projects. In our regular program we had seven visiting professors from abroad in the academic year 2013/2014, in our LL.M. program in International Tax Law about 40 during the entire academic year. Furthermore, in the academic year 2013/14, we are very proud that we could host 30 guest researchers from 15 different countries, who stayed in total for 116 months at our Institute. Many of our guests were granted a fellowship for their research period or could participate in a funded exchange program. We were particularly happy and proud to be able to host for the second time, an awardee of the prestigious "Uckmar Scholarship". The numerous guest researchers provide a unique opportunity for the members of the Institute as well as the incoming academics to establish and enhance contacts with the international scientific community.

The Austrian-Chinese Tax Research Network

Since 2008, the Institute for Austrian and International Tax Law has established a unique tax research network with the focus on international tax law, tax policy and tax administration with the following Chinese universities: Peking University (PKU) Law School, Central University of Finance and Economics (CUFE, Beijing), Sun Yat-Sen University (Guangzhou), Wuhan University, Xiamen University, Chinese University of Hong Kong (CUHK) and the University of Hong Kong (HKU).

Conferences and Meetings in Beijing and Hong Kong

Within the framework of this cooperation, a WU team consisting of Prof. Lang, Prof. Owens, Oliver-Christoph Günther, Ina Kerschner, Li Na and Marion Stiasny travelled to Greater China for a series of events in June 2014. On the next two days, the "1st Europe-China Tax Dialogue" took place. The conference was co-organized with the Chinese Ministry of Finance and CUFE. Moreover, the WU delegation had a closed meeting with the Head and other members of the International Department of the Chinese Tax Administration and the Chinese Vice-Finance-Minister invited Prof. Lang and Prof. Owens for dinner. The series of events in Beijing and Hong Kong were rounded up by the International Tax Conference "Positioning Hong Kong in the New International Tax Environment", which was organized together with the Chinese University of Hong Kong.

Teaching in Beijing and Xiamen

This years activities focused not only on research, but also on teaching activities. In autumn 2013, a Viennese delegation (Li Na, Alejandro Ruiz and Elena Variychuk) gave a five days lecture to PKU/CUFE students as well as practitioners.

Staying in touch with students, graduates and other practitioners

It is extremely important for us to stay in touch with our students, graduates and other practitioners. Ten years ago, we started to build up a database containing information about our students, in order to give them as much information as possible, and to stay in touch with them after they graduate. In addition, we provide approximately 5,000 people with our electronic newsletter and send them our magazine *TAX LAW WU* on a quarterly basis, to give them information about our Institute's activities. It is always a pleasure to invite our alumni and other practitioners to special lectures. We see it as our obligation to support our former students in their continuing education. Furthermore, the participation of practitioners is to the benefit of our regular students, since their questions usually touch on many relevant practical issues. We are happy that more and more former students are accepting our invitation to return to our Institute as often as possible. We especially appreciate the fact that many of our graduates have taken the time to participate in our seminars, conferences and symposiums, to listen to the presentations of our research results and to discuss them with us.

CEE Vienna International Tax Law Summer School

In July 2014, we organized the CEE Summer School on International Tax Law for the sixth time, which took place at our Institute. This program comprises a week of intensive work on scientific topics covering the practice of double tax treaties and European tax law, taught by professors and experienced research staff of our Institute. Renowned partners from the business community support the program. This year we could once again offer all selected full-time students free participation in the program. Reception is organized to encourage contact between students, lecturers and renowned partners from the business community. This year, the CEE Vienna International Tax Law Summer School was sponsored by Bank Austria, Henkel, LeitnerLeitner, Siemens and TPA Horwath.

Helping Practitioners Search for Literature and Case Law

Our Institute houses the Research and Documentation Center for Tax Law. Many firms are members and make use of the support of the center's research staff, which is made up of excellent and very experienced students. They collect literature and case law on selected topics for the members, upon request. The membership fees are used for further improvement of the quality of our library.

Corporate Tax Lunch

On October 30, 2013, and on April 24, 2014, our Institute, in close cooperation with the Chamber of Commerce, hosted a working lunch for corporate tax directors who provided input statements on recent developments in the area of BEPS.

Henkel Global Tax Campus

On October 14 and October 15, 2013 and also from May 6 to May 8, 2014 our Institute organized together with Henkel the "Global Tax Campus".

Training Course for the Central Tax Court of Thailand

The Central Tax Court of Thailand approached our Institute to organize a tailor-made program about "International Tax Law and European Union Tax Law - Principles, Practical Problems and Recent and Emerging Issues" for them.

We were honoured and pleased to welcome 34 judges of the Central Tax Court of Thailand from May 19 to 29, 2014 at WU. Prof. Michael Lang and other Senior Researchers and Lecturers of the Institute for Austrian and International Tax Law of WU presented and discussed selected case studies (practical cases taken from court judgments, administrative rulings etc), to cover the most relevant and interesting topics in this area. One additional highlight was the visit to the Austrian Tax Court, a brief campus tour and a presentation of the new technical features and facilities in the Teaching Center of WU, which was met with huge interest by the Thai judges.

Alongside the training sessions the judges also had the opportunity to see a bit of Vienna and Austria. Finally, the Vienna Philharmonic Summer Night Concert Schönbrunn 2014 was the grand finale to a grand Vienna stay.

Tax Treaty Courses

We held seminars on tax treaty law (January, 2014; July, 2014), in which we shared our knowledge and experience with practitioners during courses lasting from three to six days, making use of the specialization of our research staff in international tax law.
