

Call for applications for Bachelor's theses

- **Requirements**

Topics for Bachelor's theses will be assigned exclusively to BBE students who have successfully completed the mandatory course "Law, Economics and Business". Students who are enrolled for the specialisation "European and International Tax Law" will be given priority.

- **General topic**

"Tax measures introduced during the COVID-19 crisis"

The subtopics are:

1. National COVID-19 related tax measures and state aid implications
2. COVID-19 related amendments of the tax residence status of individuals in the UK
3. Effects on companies' residence due to COVID-19 related changes in business activities
4. Enhanced possibilities to offset losses due to COVID-19 related tax measures in an international comparison
5. Enhanced tax payment deferrals due to COVID-19 related tax measures in an international comparison

- **What should a Bachelor's thesis look like?**

The first rule is "quality over quantity". In the ideal case, a Bachelor's thesis should be concisely and precisely worded and ready for publication. If a Bachelor's thesis is of outstanding quality and contains original, well-founded thoughts, 20 pages (main text and footnotes only) will be sufficient. The Bachelor's thesis must be written in English.

- **Which assessment criteria have to be met?**

The Introductory and Orientation Phase and the course „Academic Skills“ have to be successfully completed before handing in the thesis.

For the approbation of a Bachelor’s thesis, mastery of spelling, grammar and proper citation is required. In the Bachelor’s thesis, the candidate has to demonstrate their profound knowledge of the relevant scientific literature on the subject. Furthermore, the candidate must be able to describe, discuss and assess different perceptions on the subject and (if possible) develop their own thoughts on it.

- **Thesis mentorship**

During the whole process of writing, students will be offered support by the advisors (always a professor and a teaching and research associate). However, students are expected to engage fully in their work. The aim of the intensive mentoring is to produce a Bachelor’s thesis which, in the ideal case, will meet the standards for publication.

In the course of a preliminary meeting, the subtopics of the current year’s general topics will be presented and assigned to the selected candidates. A research outline has to be handed in four weeks after the preliminary meeting at the latest. The Bachelor’s thesis has to be completed within five months. Each student can only be assigned one Bachelor’s thesis topic at our Institute.
