

## Kick-off Event ARTIS Blockchain

**The lab10 collective invites in cooperation with the Research Institute for Crypto-Economics (WU Vienna) to the official kick-off event of ARTIS Blockchain.**

Less than 10 years ago, the Bitcoin whitepaper barely shook the foundations of the financial industry - the potential that the Blockchain's underlying concept could have gained some noticeable attention in the following years. This was partly due to new developments such as smart contracts, which opened up new fields of application. In which areas of life and industries these new technologies could trigger an earth-shaking change, is the focus of Shermin Voshmgir's keynote.

Currently a colorful and diverse blockchain world seems to be emerging in the future. The ARTIS Blockchain will be a part of it - developed by the lab10 collective from Graz. It is a stand-alone blockchain that offers a worldwide unique functionality - the "Streems" that allow a time-based cash flow. With this, the ARTIS Blockchain opens up the possibility for new business and billing models, best suited for the sharing economy and in addition for new innovative business ideas.

Date: 11. April 2018

Time: 18:00 (Admission at 17:30)

Venue: Wirtschaftsuniversität Wien, Festival Hall 1

Opening speech: Dr. Shermin Voshmgir

Speaker: Bernhard Wladkowski, DI Thomas Zeinzinger

Moderation: Nikolaus Jilch (Die Presse)

Host: [lab10 collective eG](#)

Event e-mail contact [here](#).

Take the opportunity to learn more about the technical and economic potential of Blockchain technology, in particular of ARTIS, and personally get to know the team behind this Austrian development. The event is also the ideal opportunity to register for the "Closed Funding Round" or to find out about the "Public Funding Round".
