

Regulations for the dissertation

Submitting the dissertation:

1. Final version of the dissertation has to be uploaded to myWU
2. Send the **Grading protocol of the dissertation** (filled in by you, without the grades and signatures of the members of the Doctoral Committee) via email to the Doctoral Office; this form is available in the Download area of your degree program.
3. The Doctoral Office will forward the uploaded dissertation and the grading documents to the members of the Doctoral Committee.

From 1 March 2025 onwards, you do not have to submit bound copies anymore; if you or members of your Doctoral Committee would like the dissertation as a book, you can of course order copies at a copy shop or bookbinder.

Please do not forget to include a title page as the first page. There is a template in the download-area; you do not have to use it, but if you choose to design a title page yourself, please include all the information the template provides:

- title/subtitle of your dissertation
- your academic degree(s) (without the doctoral/PhD degree to be obtained), your first name and surname
- academic degree to be obtained (Dr./PhD)
- student ID number
- name of doctoral degree program
- subject area (main subject or more narrowly defined subject of your dissertation)
- titles and names of the members of your Doctoral Committee
- date (month and year)
