

WU Foundation Research Award for Business

Info sheet for completing the online form

Please complete all requested information in the [online form](#).
Explanations are provided in the comments.

If you have any questions, please contact **Lisa Tragbar** at researchaward@wu.ac.at.

Information about Nominator - *If you would like to nominate a candidate, please begin by providing your own contact information.*

First name * _____
Surname * _____
Current Academic Affiliation * _____
URL * (Link to profile at academic institution) _____
E-Mail Nominator * _____
Year of PhD * _____

Nominators must be affiliated with a higher education institution and hold a PhD.

I have informed the nominee about the nomination: *

Please obtain the nominee's consent before submitting a nomination.

Mandatory *

Yes ☐

Information about Nominee - Provide the information of the person you wish to nominate.

First Name * _____
Surname * _____
Current Academic Affiliation * _____
URL * (Link to profile at academic institution) _____

Provide a link to the nominee's profile at a higher education institution, preferably their institutional academic profile; otherwise, a scholarly profile (e.g., Google Scholar or ORCID) - e.g.:
<https://research.wu.ac.at/de/persons/bernadette-kamleitner-7/>

E-Mail Nominee * _____
Year of PhD * _____

Scientific field*

Choose the scientific field that best fit the nominee's research profile.

We are aware that the list does not cover all scientific fields comprehensively but need this information for the selection process. Please select the discipline that best matches the nominee's research profile and do not add other scientific fields.

Top 3 Publications of Nominee

Links to nominee's 3 key publications, including a contribution published in the last 3 years - Provide links to the nominee's three most important publications, including at least one publication from the past three years. The [WU Star Journal List](#) can serve as a reference for identifying influential publication outlets and for gauging which research contributions are particularly valued across disciplines.

URL * _____

URL * _____

URL * _____

I confirm that the nominee has not been employed at WU in the last 15 years:

Candidates must not be employed by WU and must not have had a regular affiliation with WU within the past 15 years. One-off teaching assignments are permissible and do not affect eligibility; regular teaching appointments or other ongoing affiliations with WU are not.

If you are unsure about a nominee's eligibility, we recommend asking the nominee directly. A WU affiliation listed on a publication may indicate a past or present relationship with WU and should be considered when assessing eligibility.

Please select: *

Yes ☐ No ☐ Unknown ☐

Justification of nomination:**Explanation of relevance (max. 250 words) ***

Briefly outline the academic relevance and scientific impact of the nominee's scholarly contributions.

Explanation of its relation to business (practical contribution/impact, max. 250 words) *

Briefly outline the real-world relevance and impact of the nominee's research contributions for business practice, policy, or society.

optional: other things to consider (e.g. parental leave, max. 250 words)

The jury applies the uLike assessment: academic age, rather than chronological age, is considered. Please indicate any career interruptions, such as parental leave or caregiving responsibilities, that may extend the eligibility period beyond 15 years post-PhD.

Data protection declaration

I hereby give the WU Research Service Center consent to process all data provided as part of the online application process for the purpose of assessing, deciding on, and processing research project applications. For the assessment of individual projects, the project applications and the attached additional documents may be sent to external experts or funding bodies and their affiliated entities.

This consent is given freely. I can withdraw my consent to any further data processing at any time, but any processing of my data which occurred before consent was withdrawn remains legal and unaffected. I can withdraw my consent at any time in writing by sending a written notice to the Research Service Center (forschungsservice@wu.ac.at). If I withdraw my consent, all data processing activities that are not permissible without my consent will be stopped immediately upon receipt of my notice of withdrawal of consent, and the data on which these activities were based will be deleted. Withdrawal of consent and the resulting deletion of the personal data lead to the termination of any decision-making procedures that may have been initiated for assessing the application.

Mandatory ☒

I have read the data protection statement (available at the beginning of the form).
