**GOOD WORK****GOOD LIFE****TRANSPARENT & FAIR**

A Strong Staff Council – for a Strong Representation of Your Interests

We strive for a balance of interests with the employer.

We keep you informed via our “BR-Info” newsletter and our website (short.wu.ac.at/wissBR).

We provide advisory services during our office hours.

We are there for all academic staff – from student assistant to professor.

We want to hear your concerns!

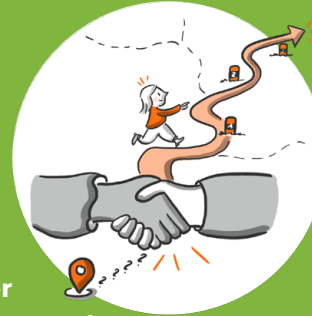

Contact us at:
wiss.betriebsrat@wu.ac.at

Our Priorities

1) Personnel Structure with Prospects

We demand **attractive career opportunities** and more **permanent positions**. These will create long-term prospects for all researchers and lecturers, moving away from precarious employment. WU is growing and we have an opportunity to help shape its future.

2) Good Teaching Conditions

To ensure good teaching conditions, it is necessary to **expand our teaching facilities**. We are working to ensure that teaching is **organized in a transparent and compliant manner**. We are also committed to greater visibility and **recognition** of achievements in teaching.

3) Time and Space for Research

Excellent research requires an **individualised** approach to the allocation of working time. These opportunities must be **communicated transparently to all**. In addition, we demand appropriate **recognition** of research work for all employee groups.

4) Diversity in Research and Teaching

The **diversity** of research topics, theoretical approaches, teaching content, and didactic methods is a great advantage of WU that should be maintained. We are committed to preserving and living by the principle of **freedom in science and teaching**.

5) Digitization with Common Sense

Active participation in information security issues is important to us. We are committed to protecting employee data and ensuring convenient processes and procedures in teaching, research, and administration. We want to **preserve the personal privacy** of employees in the digital WU workplace.
