

Assessment Scale

OUTSTANDING	GOOD	FAIR	DID NOT MEET THE EXPECTATIONS
--------------------	-------------	-------------	--------------------------------------

- **OUTSTANDING:** **Exceptional** ability for self-reflection, with clear, well-reasoned, and personalized answers grounded in one's own personality and experiences. The intention is that "Outstanding" is awarded only to **highly excellent applicants** who can independently and comprehensively argue in line with the assessment criteria.
- **GOOD:** Students present **solid** reasons, clearly connected to their own personality and experiences, resulting in well-founded and convincing arguments. Compared to the "Outstanding" rating, self-reflection in terms of personal development is less pronounced.
- **FAIR:** Students provide **general** reasons without clearly linking them to their own personality and experiences, resulting in limited self-reflection.
- **DID NOT MEET THE EXPECTATIONS:** Students **fail** to provide clear reasons or connect them to their own personality and experiences, with no evidence of self-reflection.
