Additional Information

In order to be awarded both degrees, the following requirements apply:

Thesis

Students are required to write a thesis during the second year of their studies. WU students going to BI will have a thesis supervisor at BI.

Although the general practice at BI is that students write a thesis in pairs, it is recommended that WU students write an individual thesis. If students would like to write a thesis in pairs, students have to contact BizComm Program Management beforehand.

Students have to electronically submit their thesis at BI before July 1. The thesis must also be submitted to WU and will be approved and graded by both institutions individually.
