- V. SAVE OR SHARE YOUR WORKSPACE
- VI. GET ALERTS FOR MARKET-MOVING EVENTS

- add the apps you want
- size them to meet your requirements
- group them together so that they move as a single entity
- stack them to create tabbed windows so that you can flip back and forth
- arrange them around other applications such as Microsoft Excel or Outlook
- link them together so that they share data

## I. EXPLORE APPS FOR YOUR ASSET CLASS

*My Apps* gives you one-click access to the apps most frequently used in your asset class. For example, default apps for an equities trader include Quote List, Option Watch, and Time & Sales App.

Other categories help you find the apps suited to your workflow.

Click *App Library* to view the full list of available apps.

**Tip:** You can rearrange apps in *My Apps* by dragging the icons and dropping them to a new location. You can also add or remove apps by clicking on the + beside the App name.

Resize an app as you would any other window: just click the frame and drag to the new size.
